

Handling Specialty has developed a global reputation for successfully delivering custom engineered material handling systems to a wide range of industries.

Automotive Industry

Automation companies, system integrators and OEMs look to Handling Specialty for robust, production duty equipment employed in automotive manufacturing. Handling Specialty brings tremendous value to applications involving high duty cycles, large weight capacities, unique mounting configurations, tight tolerances and the stringent process, quality and safety demands of the automotive manufacturing sector.

A commitment to creativity, long-term relationships and quality are all part of the culture at Handling Specialty. Our exceptional team of talented engineers, project managers, skilled manufacturing staff and expert turn-key installation representatives ensures that we exceed our customer's most stringent demands for schedule, budget, reliability and overall equipment performance.

Handling Specialty has developed a global reputation as being a creative problem-solver and reliable partner; building upon our reputation by providing unique, custom engineered material handling and industrial automation solutions that help our clients increase productivity, improve safety and reduce operational costs.

We Build Big Things to Help our Customers Build Big Things

Custom Applications

- Skid Stacker/Destacker Systems
- Skillet Lifts
- Marriage Lifts
- Lifts for Automatic Guided Vehicles
- Hydraulic & Electro-Mechanical Scissor Lifts
- Custom Personnel Lifts
- Vertical Drop Lifters VDL
- Blank Feed Tables
- Conveyor Transfer Lifts
- Automatic & Manually Guided Vehicles
- Explosion Proof Lifts
