*Handling Specialty has developed a global reputation for successfully delivering custom engineered material handling systems to a wide range of industries.*

---

## Iron and Steel

Handling Specialty combines best-in-class engineering, manufacturing and controls integration to create state-of-the-art turnkey solutions to help our clients increase productivity, improve safety and reduce operational costs. Designed to exceed the demands of steel processing industries, Handling Specialty's rugged and dependable solutions are well suited to handle tough environments, the harshest elements and unique production challenges.

Handling Specialty's highly skilled work force and relentless commitment to quality delivers creative solutions, robust equipment, turn-key installations, onsite training and long-term professional support.

Handling Specialty designs and builds robust, heavy-duty material handling equipment ensuring it is manufactured, tested and installed to withstand the punishing requirements of the iron & steel industry.

*We Build Big Things to Help our Customers Build Big Things*

# Custom Applications

- Ladle Rebricking / Relining Platforms
- Automatic Guided Vehicles (AGV)
- Manually Guided Vehicles (MGV)
- Rail Guided Vehicles (RGV)
- Large Capacity Transfer Cars
- Custom Personnel Lifts and Work Platforms
- Production Duty Work Positioners
- Heavy Duty Lifting Solutions
- Equipment for Hazardous Environments
